

## HOPE EDUCATIONAL CENTRE THE 2018 ANNUAL REPORT

We thank our Almighty God for taking us this far since we started in January until now. It is my pleasure to take this golden opportunity to brief you on the year's events and happenings.

### **A. APPRECIATION**

I will like to appreciate our sponsors, Christ Church, for the good work you do to this school. I know you really carry this school in your hearts. I will also appreciate Madam Roberta Peterson for the coordination between board of management and the sponsors. Among the many things you have done to the school, here are some:

#### **1. CLASSROOMS**

You built permanent, spacious and good-looking classrooms which can accommodate the increasing population of the pupils.

#### **2. TEXTBOOKS**

You have supported the school with textbooks and storybooks. These enable the school performance to always be good.

#### **3. PAYING SCHOOL FEES TO NEEDY STUDENTS**

This is very commendable on this earth and even in God's eyes. The Bible says, the church should help the needy, poor, widow and orphan. I personally am happy with the help you give to pupils by paying school fees, buying uniforms for them, bags and exercise books for primary pupils in our school. You also extend your good work to paying school fees to some of our secondary students who deserve the support.

#### **4. FURNITURE**

I appreciate the furniture we received from Madam Roberta. She bought plastic chairs, armchairs, tables, small tanks for clean drinking water, a 1000-liter tank, cupboard and office desks.

#### **5. LATRINES**

Sincerely it is extremely good when I see new pit latrines started. Thank you very much for getting our request and working on it immediately. It is going to be good for us when the new school year begins in January.

#### **6. SCHOOL NURSE**

We appreciate the medical support given by a nurse provided by Christ Church. She comes once a quarter to check on our students' health. I also want to thank Tony and his friends from Virginia for donating a lot of first aid material.

## **7. GAMES AND SPORTS**

Thank you, Tony and Steve, for donating five new balls to the games department. May our Almighty God bless you abundantly.

## **8. VISITS TO SCHOOL**

The school was visited by very important people:

- a. Pastor John and Jeff during our August holiday.
- b. Tony and Steve during October.

Thank you for the good work.

## **B. PERFORMANCE**

### **1. KCPE EXAMINATION**

Our 2018 candidates were well prepared for their National exams. All subjects' teachers ensured that they covered the syllabus early enough and started revision as early as July. The National examination (Kenya Certificate of Primary Education) is meant for all registered eighth grade students in the whole country. It took three days and one day for rehearsal.

- 29<sup>th</sup> October 2018—rehearsal
- 30<sup>th</sup> October 2018—Math, English, English Composition
- 31<sup>st</sup> October 2018—Science, Kiswahili, Insha
- 1<sup>st</sup> November 2018—Social Studies and Christian Religious Education

We sat for the KCPE at Sakwa Primary School but we shall receive our own results as Hope Educational Centre with code 43728281. Our results are expected to be out by end of November or early December 2018. I believe our candidates will do well.

### **2. PRAYER DAY**

This year's prayer day was extremely different from other years. We were privileged to have Tony and Steve representing our sponsors. The Board of management for the first time attended our ceremony. They include:

1. Bishop Henry Onsongo (main speaker)
2. Japhet Omosa
3. Stephen Oroggi
4. Ronald Gisenba

## **C. SCHOOL NEEDS**

### **1. ELECTRICITY**

We appreciate for the efforts made, by putting up a post in the school compound. We only need it to start working by installing it, need meter box and other necessities.

## **2. LAPTOPS**

Our candidates were extremely happy when Tony and Steve brought them a microscope and they taught them how to use it. Thank you very much. Since Kenya is advancing in technology education and the new curriculum needs laptops to support in learning, we pray that God will open ways for school to get some laptops.

## **3. CLASSROOMS**

The Department of Education promised our school that they will give us our own KCPE center next year only if we:

- Finish the walls and floors of the classrooms.
- Put up the windows and glasses in the examination room.
- Register more than 20 candidates next year. In this case, we have more than 25 students for the 8<sup>th</sup> grade KCPE exam.

## **4. GAMES AND DRAMA**

We appreciate the support of the new balls and request if possible to get games uniforms and drama costumes.

## **5. MATHEMATICAL SETS**

We request for mathematical sets to enable our pupils to do well in math.

## **CONCLUSION**

The school will open officially on 2<sup>nd</sup> January 2019. I really appreciate your support and kindly ask you to continue helping the school.

*Wish you Merry Christmas and Happy New Year.*

Yours faithfully,  
Hesbon Onserio  
Headteacher
